Abstract

My previous Discoveries of the Origin and Correct Cure of Maculopathy and Chronic Glaucoma has carried to Logic, Objective and Scientific Conclusions that both the Pathologies have the same Origin: the "Body - Over - Intoxication" (and poisoning).

The Earth it is no more the "Garden of the Eden" on the contrary it is to day a : "Garbage Dump"; the Air it is Polluted by "Chem-Trails"; the soil and the green receive the "Chem-Trails pollution" and also the Herbicides and we eat Cancer inducing O.G.M = O.M.G. Agriculture products as a normality, allowed with the consent of the Governments who follow the "Depopulation Program and Agenda"; the water including most of the minerals waters have been willingly Poisoned with "Graphene-Oxide" = the "main Poison" introduced in the "so said" Covid Vaccines that in fact are "weapons of Mass Distruction" they are: "American patented secret military weapons", because "officially" nobody can know or control the "secret substances" content into the bottles.

But we could control all them with the "Bioelectronic-Bioresonance" till the point that we can say to the patient, with our tests, which one, between Pfizer - Astra Zeneca and Moderna, has been administered "without that the patient did tell us", we can discover which one has been used, because the poisons content it is different apart the "Graphene Oxide" that it is present in all them through: "selected known frequencies".

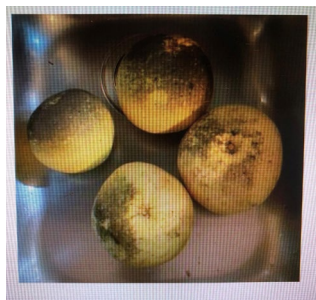

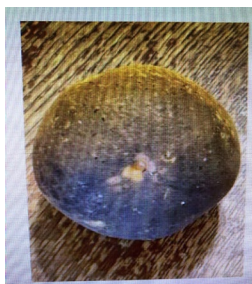

Also many cows are "vaccinated" with the same Poisons and even Salmons directly in the North Europe Farms and other fishes or meat types are "vaccinated" with the same Poison - in the International Marseille Fish-Market, as example, all fishes are vaccinated with "Graphene Oxide" before their distribution, after poisoning, in all the European Markets.

The Pharmaceuticals products are, in most cases, willingly poisoned, "vaccines are -empty ones-" they are -all- "-without-

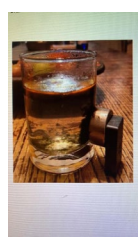

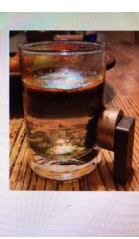

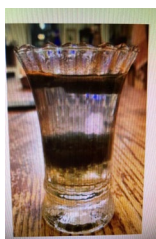

the vaccine-antigens" so "incapable to do their job-mission", but, instead, are full of herbicides as the Glyphosate and "Graphene-Oxide" or cancer inducing viruses as "S.V. 40" or "HIV" or Cancer inducing Heavy Metals as Aluminium and Iridium willingly introduced to kill the persons that received the "Vaccination" and you "Must" also know that all the "Physiological Solution" on the Planet it is willingly Polluted with the "Graphene-Oxide" as the anaesthetic fluids so that all the "vein-Infusions" to patients and the Medicines prepared with it, as (Flebo) or liquid solutions or Chemistries or Pharmaceuticals are done with the "Physiological-Poisoned-Solution".

This is a "Satanist-Plan" to reduce "over-Population" that see us as "insects to be exterminated". All these Poisons arrive in our Body as an Over-Poisoning-Intoxication - every one on the Planet is more or less over-polluted, over-poisoned and consequently "over-intoxicated". I will show you photos of "Grafene-Oxide" in glasses with the water from "Rome water fountains" to minerals waters, more than 90% are polluted by Industrialists of Mineral-Waters corrupted by "Our-Owners" who want to eliminate 7 milliards of persons from the Planet into 2030/2050. The photos are done with the use of an "Electrolysis' Chinese apparatus" that cost few €. but that must be utilised for "about 2 minutes" "not 70 seconds", because at 70 seconds all waters examined will be transparent and clear but at 2 minutes only the not polluted waters will remain clear as in Nature and the poisoned will show the black "graphene-oxide" in the water.

Grapefruit with GRAFENE- OXIDE on the right partially covered by leaves.

First: Rome City Water - MINERAL WATERS with Magnetic GRAFENE And Bluis Glyphosate

Buy it and check by yourselves-only then you will become conscious of the terrific plan of "People-Extermination" into which all us are living to-day. We are into a "War of fifth generation" where the "Enemy" is the "People of that country" with the Government that secretly organise the "Poisoning" to reduce them. Many of us have also an "over-rich diet" often eating large quantities of Poisoned street or fast food and many are "over-weight" that it is an "-evident index- of the over-intoxication".

The body-fat represent the storage of poisons, toxins and heavy metals, into the fat-cells with also the "over-hydration" and consequent "over-weight", because "nature" to help us to survive at the - over-intoxication- increase the "- water volume - contained in the body" reducing with the - Dilution - the "poisons concentration" avoiding a - Further Damage - for the Body.

Who do not "understand or know" what I have already said it is still "so stupidly ignorant" and "happy to live" in the "-Alice in Wonderland-" but -ignorant or not- do assume all these above mentioned Poisons and Toxins with the "unavoidable health damage - consequences" - very few Persons in the World, to day, are "aware and conscious" of my "terrible but true" informations and have started to live in a different way, as much as possible far from all those Poisons and have, as a consequence, a "more healthy life" - maybe no more than 5% of world-population.

An other information is that serious general Pathologies till Cancer have all a "multifactorial" origin due to the Multifactorial Insults that the body receives mostly including poisons and toxins. God gave us a "Rescue Biological Program" for "Acute" trauma or incidents because in the Eden-Garden there were "only acute risks" but "not chronic insults or Diseases"; therefore we do not have any "Biological Program

for Chronic Diseases", and "our owners" well know and use this "infos"-and the consequent "Cytokine-Storm" into our Body cannot be stopped unless with my "Regenerative Informational Medical Treatment", or with the Dr.Dietrich Klinghardt: "Aferesi-Treatment".

Introduction: I could Cure myself as "first Patient" for both the above mentioned Pathologies, after having been so "Stupid and Ignorant for many decades of my life", I arrived to 100 kilos of weight !! - till the moment that "I could awake me up"- and I did, till that moment, all the possible "diet mistakes unconsciously" for the "ignorance of wrongly believing" that the Planet was still unchanged as hundred years before.

- A general Cultural-Gap with terrible consequences -

Maculopathy, that it is also provoked by an endo-Intoxication, was, in me, just at the very beginning stage without very important Clinical symptoms as a significant reduction of the Visual Acuity. Only the O.C.T. did show initial alteration, mostly in my left Eye, with slight initial functional' Reduction. Chronic Glaucoma, at the contrary, was in a very advanced Clinical Condition with the "lost of Colours Perception", in the left Eye, where I could see "only" in "black and white" with a great damage of my Cones and a Visual Field Reduction and also with a "deep cone" in my OCT -Optic Nerve head 'Scan- also with the "Tachifilaxis" problem (= when "all" anti-Glaucoma eye-drops have "no more effect" whatever quantity you use on your Eyes) and my "Eye-Pressure was out of control" with darkness progressively increasing around me, also after 12 operations of laser and microsurgery "without any positive results", at the contrary, as I could later understand, that I had much increased, with the "anatomical-damages" caused by the laser and microsurgical operations, the difficulties for the "full Recovery of my visual-functions" : with my "Informational Regenerative Stem Cells Natural Medical Treatment" that gave me, in any way, with a longer Treatment, the achieved Success. With my Discover of proper local (Eye-drops) and retrobulbar Regenerative informational Stem-Cells Treatment all made by Homeopathic and Homotoxicological natural substances I could recover the 100% of my Visual Functions as : Colours and Visual Field and Acuity and also with the Normalisation of my Intra-ocular Pressure - For the Readers who do not know my "Curriculum Vitae": - I have made, at February 2008, the "First Straight Transplant of Autologous Stem Cells", in the World, in the Eyes of patients coming from all the world in Germany in Koln at the "Eduarduskrankenhaus Hospital" with the -Permission and Control- of the -German Ministry of Health-, obtaining only the 15% of positive Results ; but, unsatisfied from the scarce results, just at the end of 2008, I could find the "Correct Solution" conceiving my "Regenerative Informational Treatment of Autologous Stem Cells" using only :

"Natural Homeopathic and Homotoxicologic vials" without any more the necessity of the "Straight Transplant" and acquiring, with my "new Treatment", the 80% of positive results as I am still obtaining and practising, to day, with the

same rate of Success.

Explanation: After years of Clinical'observation I could conclude that the "two pathologies are present together in the 95% of the patients" normally, at the beginning, with one of the two in a more "Advanced Clinical Condition" and the other in a less advanced Clinical Condition but : -quite always- both present and progressing with different speeds. The Toxic Origin of both the Pathologies has been clearly described mostly in my Scientific Article about Chronic-Glaucoma already published in: Acta Scientific Ophtalmology (ISSN:2582-3191) Volume 4 Issue 12 December 2021: "Biological Reset and Chronic Glaucoma Healing".

Where the "general body'Over-Intoxication with the chronic Inflammation" it is the Cause of both Pathologies as a:"Collagenopathy" in the Chronic Glaucoma and as a "Degenerative Progressive Pathology" in the Macular Degeneration both dry and humid with the edema of the Pigmented Epithelium (EPR) after the "Breaking of the BER" (blood retinal barrier) and progressive Photoreceptors Damage, till their Death; progressing, in the long time, till the more advanced Complication of Epi-Macular Membranes formation and after traction and Neo-vessels formation and Proliferation.

This difference between the two Pathologies can explain why the two do not start simultaneously. But the "-Endo-Toxic Origin- it is the same" and induce an "over-Inflammation of all the tissues of the Eye" as also tissues of the Body causing, as well, the 90% of the General Pathologies. Therefore the -DMLE- as a progressive Macular Degeneration related to the progressing aging : "does not exist as a nosological Entity by itself" because the "aging" represents only the longer time' Progression for the "longer exposition to the over-endo-intoxication".

Also the Recovering'Speed of both the Pathologies with my "Treatment of Informational Regenerative Stem Cells Medicine" it is different, also if the " homeopathic-homotoxicologyc""Sub-bulbar, Detoxifyng and Regenerative injective-Treatment" combination it is "Identical".

The Chronic Glaucoma, normally, has a faster Recovery.

In both Pathologies the -Regenerative Detoxifying Retrobulbar Injections- "do their job" and the Patients that do seriously every single step of Treatment after having changed their diet and life-style in an "anti toxic modality" accordingly to my very clear Indications "do see" their expected improving good and positive Clinical Results.

This discovery of the common origin of both Pathologies "change the way to examine" the Clinical Symptoms, "from now on": -whichever Pathology starts first or it is discovered as first must induce the Ophtalmologist to check more carefully for the second Pathology with a more accurate examination of the OCT and a more accurate Ophthalmological visit with visual fields and fluorangiography and Hamsler and

Glaucoma provoking tests.

Mostly for the Macular Degeneration must be observed carefully the OCT to find the minimal edema of the EPR under the -fovea and the Macular-Area- also if the OCT do not report any significant anomaly, because it depends by "how the machine has been programmed", too often I can see a starting edema on Macular OCT examination "wrongly considered into the normality".

The "true normality" it is the : "Zero-Edema", any deformity by it, means : a starting Edema by Over-Intoxication so the - E.P.R. must be a " tiny regular uniform black line ! "- to be considered "Normal".

For the Chronic Glaucoma must be observed any slight modification of the "com-planarity" of the Optic Nerve Head, in the OCT, with the surrounding retina, also if the machine do not show significant report of starting Pathology, always for "lack of correct machine Programmation" : the "vessels kneeling" and the "whitewashing of the central Optic Nerve" and finally the "Cup" modification of the "Optic Nerve Head" and the "reduction of the thickness of the retinal' fibres" are all posterior to the starting of the Pathology and need much more time to show a clinical evidence for both the subjective symptoms and the objective OCT modifications, from the standard normality.

I must conclude that who did the programs of OCT both for Macula and Optic Nerve must have compared the exams to the "presence or not" of a "visual acuity of 10/10 and intact visual field" examination, with the patients examinations utilised to calibrate the program and -not- having individualised the difference between an : OCT" with "integral Scans" with one "not more" - "Integrally Perfect by itself" - that will slowly progress till evident signs of the Pathology.

My Regenerative Informational sub-bulbar injective Treatment do "detoxify and regenerate" -optical nerve fibres and the cones and can also release the collagen fibres of the "Lamina Cribrosa" that are slowly but inexorably strangling all vessels including the lymphatic ones and the Optic Nerve fibres that pass all through this "collagen-net-structure", this progressive "strangling" because of the progressing Inflammation caused by the over-intoxication it is the explanation for the "progressive Optic Nerve damages" also if the intraocular pressure is kept continually very low : as 10-12 mm-hg or as in the "low-Pressure Glaucoma" and my Treatment it is the only "soft system" to resolve these Specific Pathologies and also the "Retinal Macular Inflammation" and the secondary Edema without Risks or Side Effects, having proved its efficiency by 16 years of Clinical Practice, till to day : 2009-2025.

In conclusion from now on the Ophtalmologists must consider the common origin of both Pathologies and have to approach the Patient making complete examinations in both directions.

Also preparing the Patient : 1) to understand the Toxic Origin with the use of wrong food (as OMG) and beverages 2) starting, together with the anti glaucomatous drops, 3) a significant change to a Correct-Diet 4) with a “detoxifying intense program” together with 5) the stimulation of the normal deputed Draining Excretory Systems with natural “omotoxicological medicines” such as “Lymphomiosot, Galium, Lycopodium” and others and also with 6) the “Foot-Spa (Chinese) -Ion-reverse-osmosis-detoxing-machine” the only one that can expel from the Body heavy metals and poisons and toxins accumulated from the Birth till the moment of the starting detoxification by the expulsion, with the use of the machine, unless using, as an alternative, the “Aferesi-System”- 7)) also practising the right physical activity and possibly the sauna to expel as much as possible toxins and poisons from our body, actuating an :

Intense Program of inside-Body-Cleaning-Same conclusions- have been found by the Dr.Dietrich Klinghardt who discovered the “Aferesi detoxifying System” to clean the blood mostly from Aluminium released by “Chem-Trails”, that it is poisoning all us, in a -great relevant- and Pathological way, where the “normal blood tests” cannot reveal the “real huge quantity” of the metal intoxication, that only the micro-filtration of the : -“Aferesi-System”- can do.

I have to suggest to the Ophtalmologists and Medical Doctors, reading this my work, to be the first to check on their OCT and learn to eat correctly not giving for granted that with the “Medical Degree and the Specialisation” they have, automatically, acquired the “Control and Knowledge of the to-day Correct-Nutrition and Life-Style” as -I have wrongly done- with all the consequences that I have suffered on my Eyes and my Heart for my “Stupid and Arrogant Ignorance”. But I could pass, in September 2025, the Flying License and Gun personal License Renewals with a perfect sight examinations of natural 20/20 and the Cardiologist, that for the flying license, has told me, at 79 years old, -with an Heart Surgery and the Replacement of 3 Coronaries from 2 mammary arteries (a surgical masterpiece) after 7 Heart attacks with coronary occlusion-, that my Heart was working like a “Swiss watch” !

The result both for Eyes full sight and Heart perfectly working it is also the “good consequence” of my “Regenerative Informational Treatment” that I have done and do, till to day, on my-self.

As last I must expose my -total adversity- to any kind of “endo-bulbar injections” such as (Avastin and Lucentis or others) in fact the repeated injections will carry such adverse anatomical damages, as consequence, that also with my “Correct, Effective -not Aggressive-sub-bulbar Regenerative Injections” -I and the Patient- will have much more difficulty

till to the “impossibility of a full Success” with my “Biological-Reset of the Inflamed Retina” and the possible Regeneration of the damaged retinal cells and Optic Fibres.

I am also against any kind of “Macular Laser” or “Retina Pan-photocoagulation” Treatments for the irreversibility of their retinal damages - the New Regenerative Treatments are so -much more advanced- and -more effective- and -Risk free- that Ophtalmologists must change their : “aggressive approach” with the new possible Therapies and Treatments, better to : “choose prudently” Treatments that can give to the Patient a “second future possible Treatment” instead to provoke “irreversible anatomical damages” using “overcome and obsolete-useless-aggressive-therapeutic-methods”.

Let us think with a natural soft and gentle Therapeutic Approach, let us “do respect” the marvellous incredible work of our Creator and with the “Regenerative Informational Medicine” just let us try to copy what -He- has, wisely, done.
